

Certificate of Origin

Description of Product

Novum is a high quality supplement that contains pharmaceutical and analytical grade ingredients.

Novum is delivered as a powder in small plastic bottles that contain 3.0 gram powder for the addition to 500 ml rabbit semen extender. Novum powder is also delivered in quantities that are requested by customers.

Novum powder has been micronized in order to deliver a homogeneous powder that will dissolve easily in warm water without lump forming.

Novum contains sugars, protein, EDTA and riboflavin.

Novum is being manufactured and packaged in Enkhuizen, The Netherlands.

The authorizing official hereby acknowledges the specified country of origin of the product listed above.
